2016

Einhell. QualityOffensive.

Brand-Name Quality for the Best Price.

Quality.

State of the art!

Our multi-level quality assurance system has absolutely no gaps. The coverage includes our innovative, in-house development activities, quality assurance under German supervision directly at the production sites and close collaboration

with highly capable external partners such as TÜV. Labels such as TÜV/GS "Fit for use – good" and exceptional warranty coverage, e.g. 10 years on various mower decks tell you all you need to know about conformance to stringent Einhell quality standards.

Distinctions.

Independent quality verification.

Again and again, results published by independent institutes and the media confirm the excellent quality of Einhell products. Being named the winner in product tests, earning top ratings and receiving awards for entire product groups or the whole corporation prove beyond doubt that Einhell customers get genuine quality.

Price/Performance.

Brand-name quality for the best price.

Einhell products deliver the same level of quality as top well-known brands but cost around 25% – 35% less. On numerous occasions, Einhell has received top ratings for price/performance in comparison tests performed by independent bodies and consumer report magazines, providing hard evidence of the exceptional cost-benefit ratio.

Design.

Compellingly attractive, right up there with the best!

The Made in Germany design idiom makes our products spontaneously desirable. That along with clever details puts them right up there with the top brands in the garden and tool segment.

Top Service.*

Quality and service as a matter of principle.

Quality and service go hand in hand at Einhell, leaving nothing to be desired:

- Briggs & Stratton on-site service
- 20 years of Einhell service experience
- Personal contact with the experts on all service issues
- Up to 10 years spare parts availability and 24-hour shipping service
- Full-coverage network of service partners in Germany and Austria
- Online service portal with spare parts shop
- 24 hr. returns acceptance and processing
- Customer satisfaction assessments on a regular basis

Extended warranty.*

24 months extended to 36 months free of charge.

You get even more value. The warranty can be extended for every new Einhell RED product. Extension is free of charge, fast and uncomplicated. Within 16 weeks following product purchase, simply register on the Einhell homepage and enjoy the benefits of extended warranty protection – 3 years instead of 2. (Only valid in Germany and Austria)

Sustainability.

Resource conservation for tomorrow's world.

Much of our garden equipment features Einhell ECO Power technology which reduces product energy consumption and emissions by up to 25%. Engineering expertise and a pro-active commitment to environmental protection are the essence of ecological, sustainable products.

Driving demand.

Full power in all channels.

Einhell's presence in major media is driving huge demand. Top media spending and sales-optimized POS give Einhell dealers the support they need. We have pulled out all the stops with full-page ads in target group publications, a concerted online presence and of course a highly effective PR campaign.

Einhell. WELL DONE.

Einhell 2016

Now more awesome than ever.

We supply quality at the best price plus service and design. Our brand is authentic, credible, suitable for the mass market and the traditional market and comes with a good ROI. And our brand claim communicates the very essence of our independent positioning with a strong promise. **EINHELL. WELL DONE.**

- New product categorization system: Classic · Expert · Expert Plus
- Strong marketing campaigns
- Innovative new products in high-growth market segments

Einhell. WELL DONE.

Well-made products, well-executed projects, customers with well-tended gardens and trading partners who feel that Einhell is doing a really good job: our benefits promise impacts in all directions and gives an equally strong message inwardly and outwardly.

Profit from the concentrated power that stops at nothing. From design, sustainability, quality and products through to service and driving demand: deploy the Einhell strategy of attack in all the important garden power tool segments in your business.

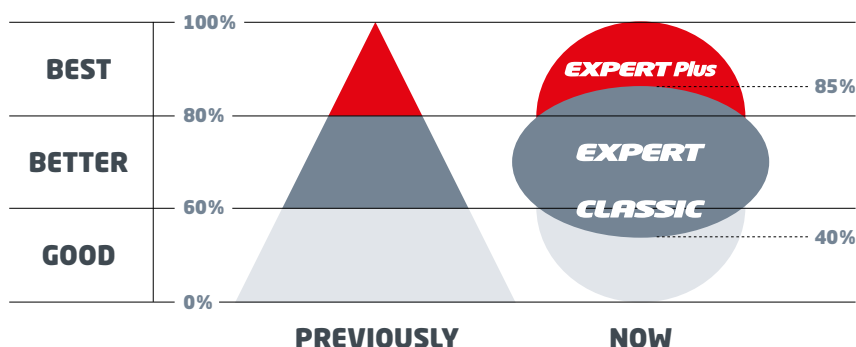

Einhell - Germany's dynamic brand for gardening and DIY.

- Worldwide distribution
- German quality and service
- Persuasive product breadth

The innovative brand that is rapidly gaining traction
Ultra-profitable value for money products

Einhell's new product categorization system is targeted straight at the fast-growing and highly promising mid-price segment.

The new product categorization system from Einhell makes it easy for you and your customers to find their way round quickly. All new packaging features appealing product and usage pictures, multilingual explanations and a uniform Einhell brand facing in the high-grade Einhell brand design.

Einhell. The brand that is rapidly gaining traction. As seen online and in print!

Einhell would like to say thanks to its customers and trading partners.

Einhell uses a professional media mix, including traditional print advertising, a search engine optimized online presence, Facebook etc.,... to strengthen the brand and drive demand.

Einhell is a highly professional commercial partner.

- Strong products
- Strong promotions
- Strong price-performance ratio
- Strong sales support

POWER X CHANGE®

ONE FOR ALL.

THE CLEVER BATTERY FOR GARDEN
AND WORKSHOP.

■ German
■ Designed
■ Quality
Einhell Germany AG

**BUY ONCE,
SAVE FOREVER.**

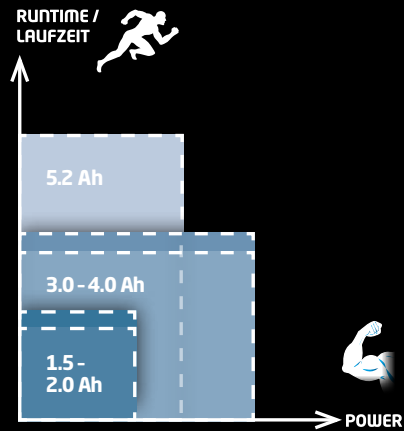

**FREEDOM
FROM CABLES.**

NOW THERE'S EVEN MORE.

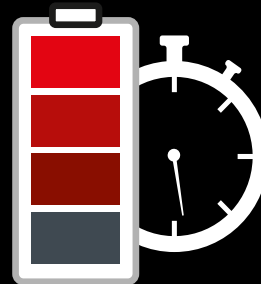

MORE APPLICATIONS.

The Power X-Change system includes batteries with a nominal charge of 1.5 Ah to 5.2 Ah - so there's always a battery for every application!

SHORT CHARGING TIME.

Innovative battery technology – optimized charging – much shorter charging times. The 1.5 Ah battery, for example, is ready for use again after charging for just 30 minutes.

MORE POWER.

Twin-Pack technology for maximum power:
For extremely energy-intensive applications 2 rechargeable batteries are simply used in one machine – e.g. in the lawn mower.
So the power comes from $2 \times 18 \text{ V} = 36 \text{ V}$

MORE SAFETY.

The Einhell ABS – Active Battery Management System – is setting the standard in terms of safety.
The temperature, current and voltage are constantly monitored, not only of the battery as a whole but also of each individual battery cell.
This is the maximum possible safety.
The optimized charging process goes easy on the Power X-Change batteries and therefore helps them to last longer.

MONITORED BY
ABS Active Battery Management System

POWER X-CHANGE.

PUTTING THE SYSTEM INTO BATTERY POWER.

BUY 1 SET.

Start your Power X-Change family! Buy one set consisting of

**Power tool
+ Battery
+ Charger**

**START SAVING
RIGHT AWAY.**

Buy your next power and garden tools

**WITHOUT the
battery and
WITHOUT the
charger.**

So you'll save with every new tool purchase.

OR INDIVIDUALLY.

The choice is yours:
you can also buy each tool and each battery +
charger individually.

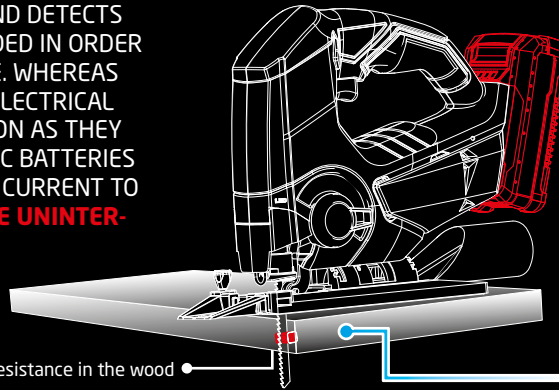

SSPCHIP POWERBOOST

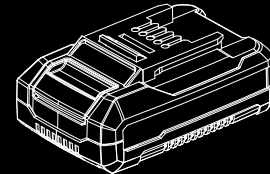

DYNAMIC PERFORMANCE

ALWAYS THE POWER YOU NEED

THE **SSP CHIP** ANALYZES AND DETECTS WHEN MORE POWER IS NEEDED IN ORDER TO OVERCOME AN OBSTACLE. WHEREAS CONVENTIONAL CORDLESS ELECTRICAL DEVICES SWITCH OFF AS SOON AS THEY ENCOUNTER RESISTANCE PXC BATTERIES INDUCE APPROPRIATE PEAK CURRENT TO ENABLE WORK TO **CONTINUE UNINTERRUPTED**.

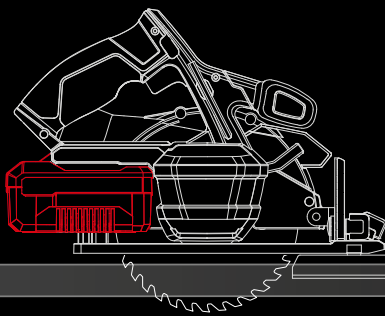

Additional resistance in the wood

IF THE DEVICE ENCOUNTERS **RESISTANCE**, PEAK CURRENT IS INDUCED:

POWERBOOST

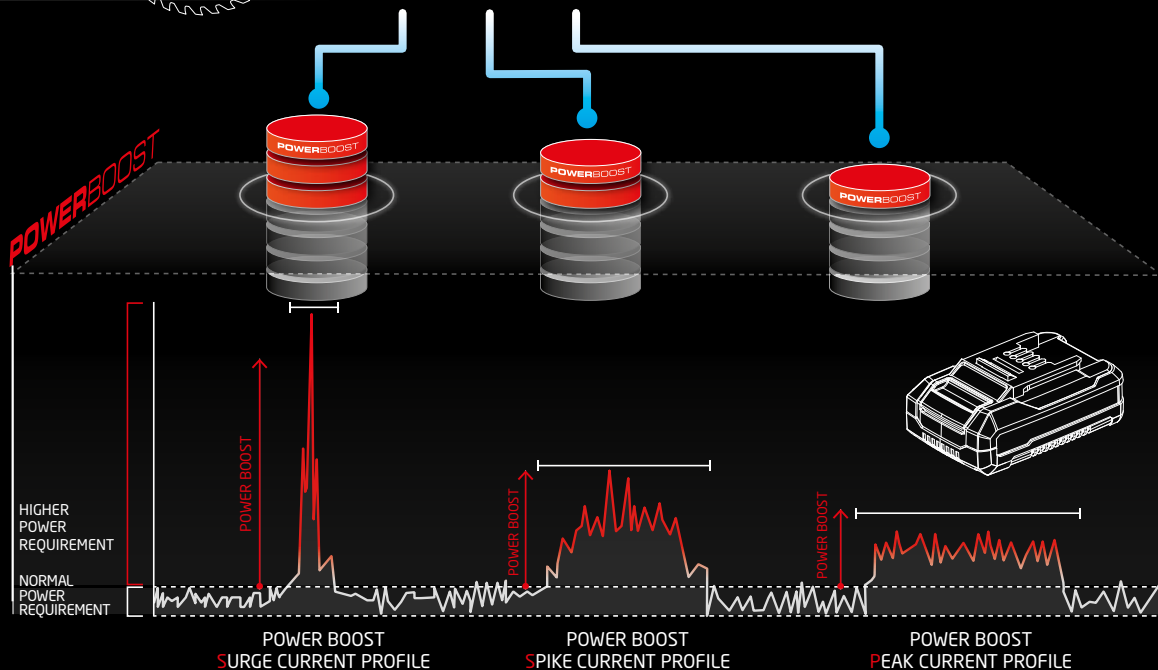

HELPS **OVERCOME RESISTANCE** WITHOUT ANY TROUBLE.

- 1 VERY HIGH POWER REQUIREMENTS* (e.g. metal clips in wood)
- 2 HIGH POWER REQUIREMENTS* (e.g. knots in wood)
- 3 MEDIUM POWER REQUIREMENTS* (e.g. growth defects)

SURGE CURRENT PROFILE
SPIKE CURRENT PROFILE

The 5-in-1 all-rounder with high wheels - the top model in the world of petrol lawn mowers!

Einhell - the No. 1 for petrol lawn mowers

- As the No. 1 on the market, Einhell is the top-selling brand for petrol lawn mowers in Germany, selling 50% more than the No. 2!
- Einhell also manufactures the most sold petrol lawn mower in Germany!
- Einhell is setting the standards in the market on all counts. Standards in technology, ergonomics, design, environmental compatibility, handling and ease of use.

For detailed information on all the petrol lawn mowers, please refer to page 28 and following.

GT General Transmissions
DRIVE SOLUTIONS FOR OUTDOOR POWER EQUIPMENT

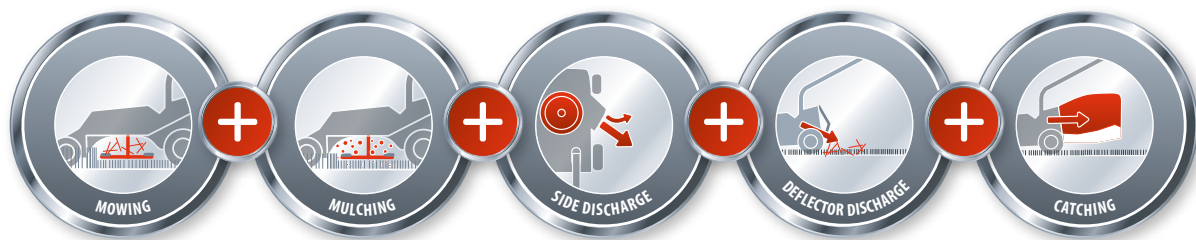

BRAND GEARING

All new rear-wheel drive petrol lawn-mower with high-quality GT – General Transmissions gearing for one speed or four.

HIGH WHEELS

Powerful 280 mm high wheels provide maximum traction and smooth travel, while supporting the strong look that defines the new Einhell generation of products.

QUALITY

The 10-year guarantee against rusting through of the mowing deck on the full range of Expert Petrol Lawn Mowers is just one example of our comprehensive quality initiative.

POWERED BY

EASY TO CLEAN EASY TO STORE*

Has an ultra-user friendly vertical cleaning position – and is particularly easy to clean using the specially designed cleaning accessories supplied..

* This is possible if the tank has been emptied.

POWERED BY

EINHELL-EXPERT PETROL LAWN MOWERS POWERED BY BRIGGS & STRATTON

B&S performance, reliability and a long lifespan, with a major reduction in harmful emissions at the same time.

The EX series engines offer the best specs of the B&S E series in combination with the innovative ReadyStart® system including the unique B&S S2 start guarantee.

No choke, no priming, but a guaranteed engine start after two pulls at the latest for engines with ReadyStart. If the engine fails to start after two attempts, Briggs & Stratton will cover the costs of an inspection at a workshop in your area.

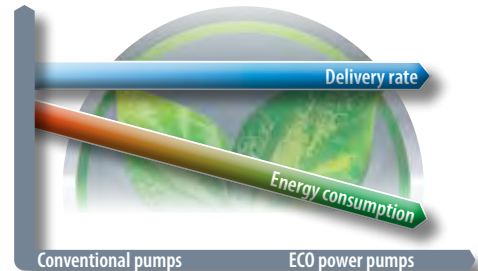

Dirty water and clean water pump. Nothing else like it: lowest suction and extraction height provides great versatility.

**SUCTION LEVEL

NEW Autumn 2016

SAW CHAIN SHARPENER
GE-CS 18 Li - Solo

44.999.40

Why sharpen chainsaw chains?

- Better cutting performance, speeds up the work
- Reduced accident risk
- Lower fuel consumption, lower emissions
- Less wear on the chain and saw
- Reduced vibration for added working comfort
- Lower exertion, reduces fatigue and enhances safety

Good to know

Re-sharpening the chain in time gives you the best grinding results and reduces metal removal. Sharpening takes less time and increases the life of the chain.

**FOREST SAFETY
HELMET**

Art. no. 45.004.80

OPTIMAL ADJUSTMENT

EXACTLY THE POWER YOU NEED

Continuous adjustment of suction and
blowing power with electronic speed
control.

2-IN-1 FUNCTION

Easy to change between blow and
vacuum function without any tools.

(GE-CL 36 Li E Solo, Electric leaf vacuums)

CLEANING COVER

The cover is easy to access, providing a practical way of cleaning the very rugged impeller.

(Electric leaf vacuums)

EASE OF USE

The harness and large guide wheels enhance convenience and ease of use.

(Leaf vacuums)

Dirty water and clean water pump. Nothing else like it: lowest suction and extraction height provides great versatility.

The quality's in the detail:

- Simple suction level adjustment +
- Float switch for automatic operation +
- Top- quality mechanical seal +
- Housing made of impact-resistant plastic +
- Hose connector at the top of the housing +
- Universal hose connection +
- Ergonomic carry handle +

**SHALLOW WATER + EXTRACTION OF DIRTY
WATER WITH LARGE PARTICLES**

Clean water

2-IN-1 MULTI-PURPOSE PUMPS - GREAT VERSATILITY

The new, patented pump generation – multi-purpose pumps which offer the combined advantages of clean water and dirty water pumps: extraction of shallow water down to 1 mm, also patented suction level adjustment for extraction of dirty water up to 30 mm particle size. A short twist of the foot on the pump changes the suction mode. It doesn't get easier than that.

Dirty water

SIMPLY ROTATE TO CHANGE SETTING

Switch from clean water to dirty water mode and vice versa just by adjusting a knob.

TOP-QUALITY MECHANICAL SEAL

We use top-quality mechanical seals for our ECO Power 2-in-1 multipurpose pumps. This reduces the friction and wear on our pumps – so they last longer.

Dirty water

FOR THE DIRTY WORK... RIGHT TO THE LAST DROP

These pumps are built to handle heavily contaminated water. They easily cope with dirt particles up to 20 mm or 30 mm in size (depending on the model). A unique highlight: the 2-in-1 pumps can be used at water levels as low as 10 mm. They then suck up everything right to the last drop (min. suction height 1 mm). They pump all of the water out Dirty water of flooded cellars, even when the water level is very low!

1 mm

Clean water

High delivery rate - low consumption.

ECO-Power

Our technical expertise - for the good of the environment.

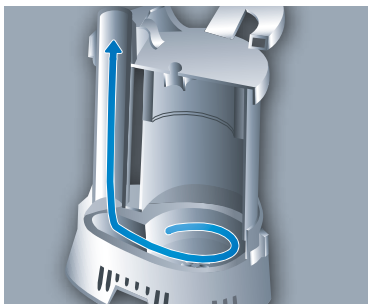

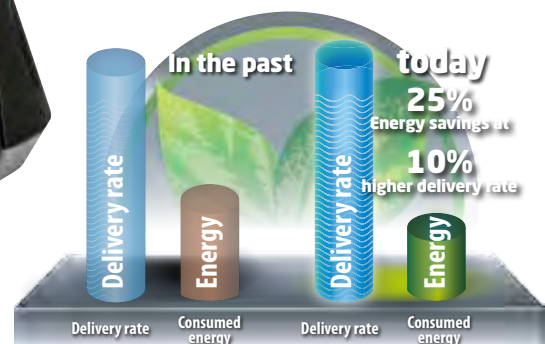

Each of us is responsible for the environment in which we live. We want to use our knowledge and technology to make efficient use of energy. ECO Power stands for the use of efficient technology. It ensures that we use every opportunity to significantly improve the ratio of energy input to performance output for our products.

ECO Power stands for: · Optimized energy efficiency – high performance with low energy consumption

- Intelligent and technically sophisticated product development
- Top-quality components
- Well thought-out product design

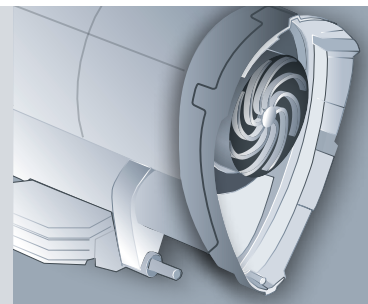

Extreme durability:

- Top-quality components
- First-class workmanship
- Long service life – guaranteed!

IMPROVED FLOW DUCT

Improved hydrodynamic flow duct for reduced flow resistance. Optimum, unobstructed pumping action – even with heavily contaminated water.

WATER OUTLET AT TOP

Practical water outlet on the top of the pump, making the pump suitable for narrow shafts as well.

TOP-QUALITY MECHANICAL SEAL

We use high-grade mechanical seals on our ECO Power multi-purpose pumps to reduce friction and wear and increase the life of the pump.

UNIVERSAL HOSE CONNECTOR

To enable hoses with different diameters to be connected to the unit there is a universal connection made of high-grade plastic.

(GH-SP 2768, GE-SP 750 LL)

FLEXIBLE GOOSE NECK

The pump has a flexible swan-neck with stopcock for individual positioning of the garden hose, as well as a rain barrel bracket.

(RG-SP 300 RB)

Still waters run deep. No problem with these pumps.

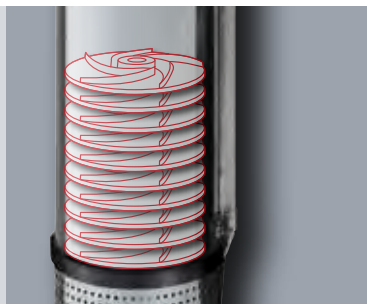

The quality's in the detail:

- + Multilevel impeller system
- + Thermal motor cut-out
- + Pump housing made of rust-proof stainless steel
- + Sturdy suspension eyelets
- + Robust pressure connection

EXCEPTIONAL PERFORMANCE

Submersible pressure pumps and deep well pumps are particularly suitable for supplying clear water from reservoirs, wells and shafts. They are designed for pumping water from great depths and passing it on at high pressure.

MULTILEVEL IMPELLER SYSTEM

For the maximum delivery rate for the given power rating the pumps have been designed with 3-stage (GC-DW 900 N) or 10-stage (GC-DW 1300 N) impeller system. The integral thermal motor cut-out protects the pump against overloading.

FLOAT SWITCH

The pump switches on and off automatically depending on the position of the height-adjustable float switch.

(GC-DW 900 N)

STURDY SUSPENSION EYELETS

Both pumps have practical suspension eyelets for fastening a rope. These make it easy to lower the pump into the well shaft.

LARGE WATER FILLER HOLE

The extra large water filler hole at the top side allows the simple filling with water before starting the garden pump to grant the fast suction effect.

(GE-GP 5537 E, GE-GP 9041 E)

WATER DRAIN SCREW

After use and before stowage, the occurring residual water can be disposed through the practical water drain screw at the bottom of the housing without residues.

(Image similar)

INTEGRATED PREFILTER

The integrated prefilter keeps possible soiling away from the pump circulation reliably in order to prevent the early wear of the high-quality pump parts.

(GE-GP 5537 E, GE-GP 9041 E)

QUICK PUMP START

The practical non-return valve prevents water from flowing back from the pump when switched off. So the pump does not need to be filled again when it is started again.

The extra large water filler hole at the top side allows the simple filling with water before starting the garden pump to grant the fast suction effect.

INTEGRATED PREFILTER

The integrated prefilter keeps possible soiling away from the pump circulation reliably in order to prevent the early wear of the high-quality pump parts.

QUICK PUMP START

The practical non-return valve prevents water from flowing back from the pump when switched off. So the pump does not need to be filled again when it is started again.

AUTOMATIC FUNCTION

The pump is turned on and off automatically when water is required.

(Image similar)

WATER DRAIN SCREW

After use and before stowage, the occurring residual water can be disposed through the practical water drain screw at the bottom of the housing without residues.

WATERWORKS

CLASSIC

EXPERT

Low-cost clear water supply for house and garden.

The quality's in the detail:

- + Versatile
- + User-friendly
- + Large water filler hole
- + Easily visible pressure gauge
- + Integrated pressure switch
- + 20 litres pressure tank
- + Practical water drain screw

INTEGRATED PREFILTER

The integrated prefilter keeps possible soiling away from the pump circulation reliably in order to prevent the early wear of the high-quality pump parts.

(GE-WW 5537 E, GE-WW 9041 E)

QUICK PUMP START

The practical non-return valve prevents water from flowing back from the pump when switched off. So the pump does not need to be filled again when it is started again.

(GE-WW 5537 E, GE-WW 9041 E)

20 LITRES PRESSURE TANK

The pressure tank - with an optimum size of 20 liters – stores the water temporarily so that the pump does not have to start up every time water is withdrawn. This goes easy on the pump and extends its service life.

INTEGRATED PRESSURE GAUGE

The plainly visible pressure allows the water pressure to be monitored at all times.
